

# How To run this course in WINDOWS?

Lets gets Start!

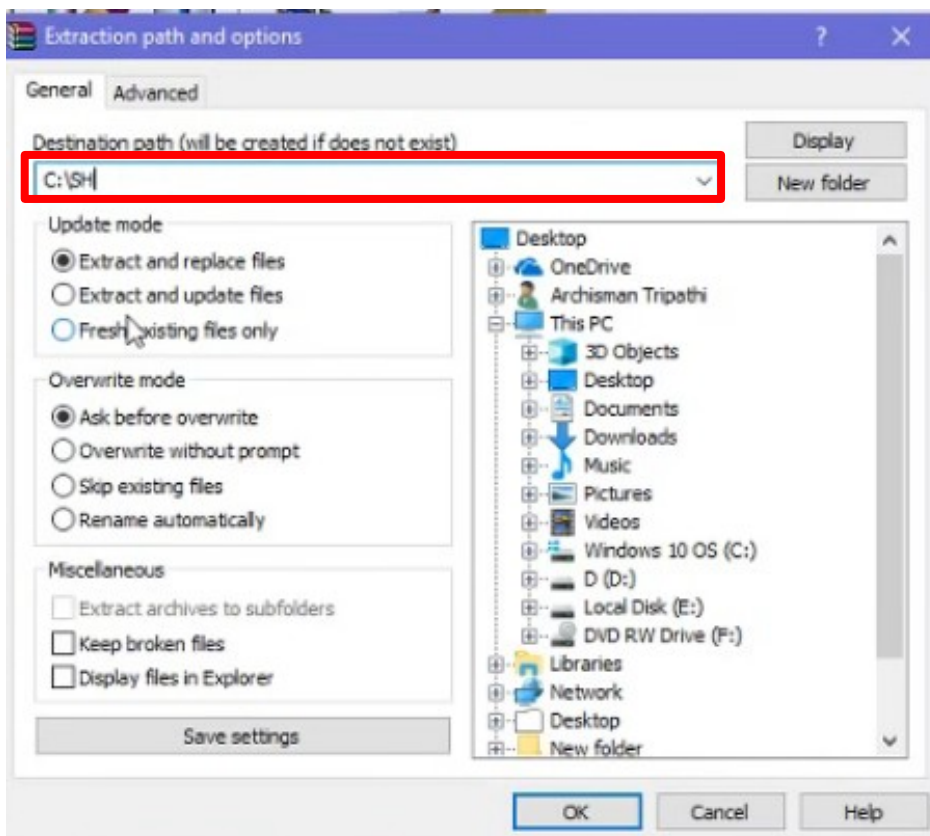

And Follow Below Steps:

First unzip the 'shell.w32-ix86.zip' in [C:/SH](#):

1:

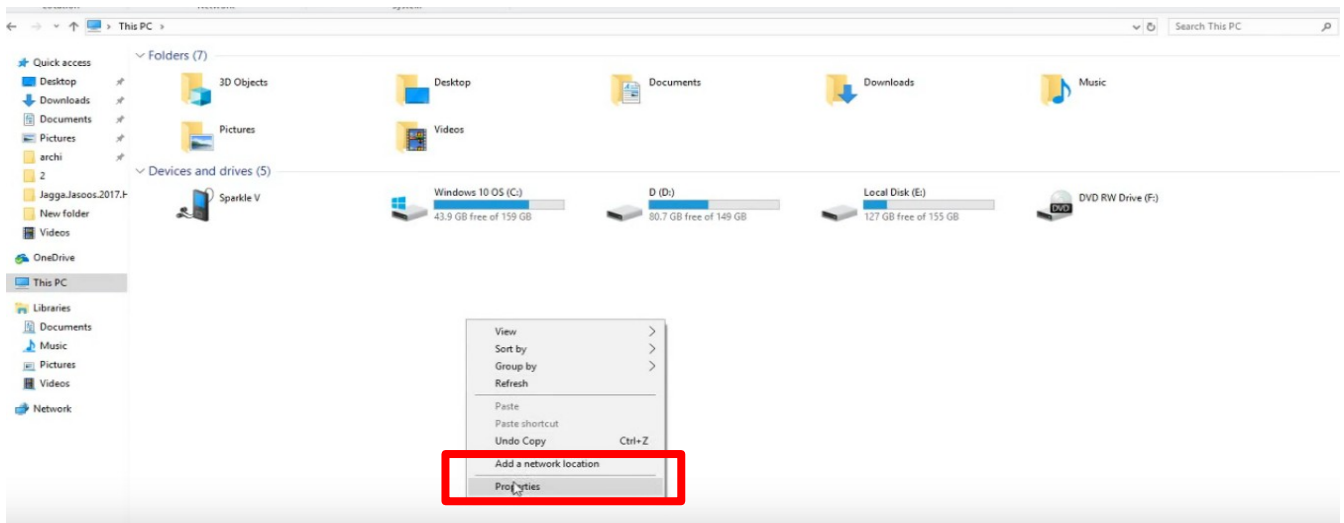

2:

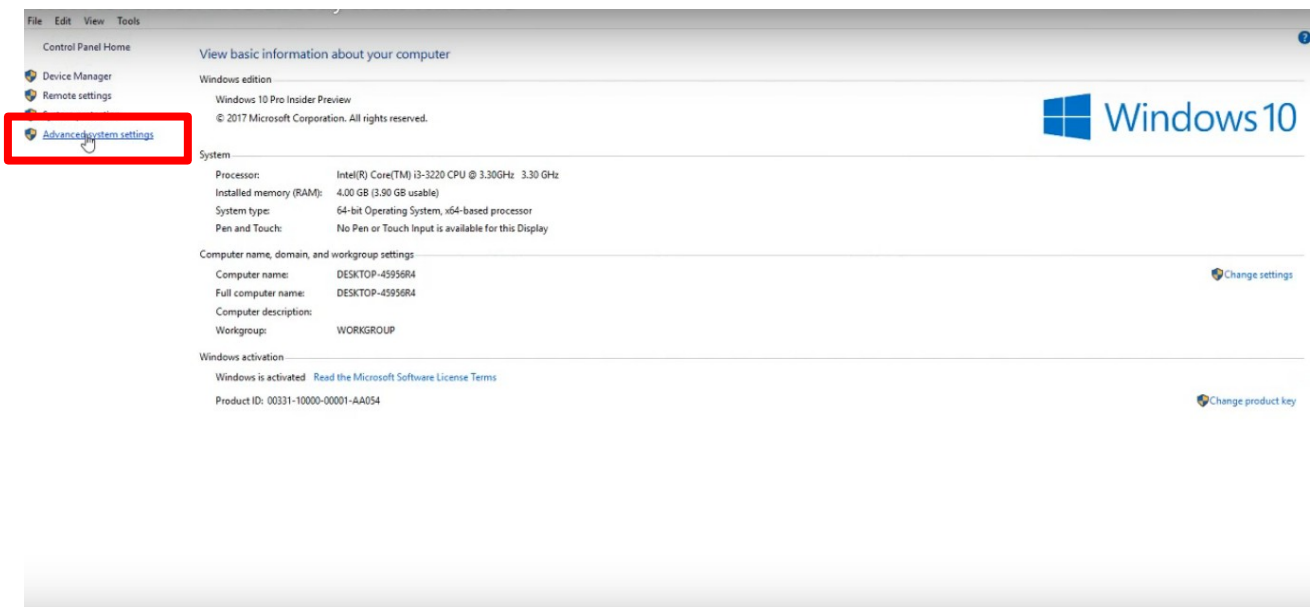

Then Click On OK. After Extracting then go to Properties of My PC.

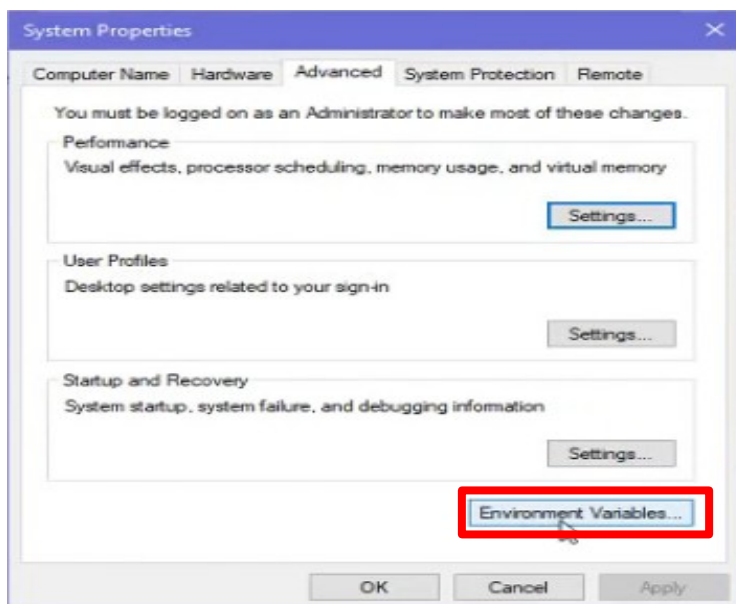

3:

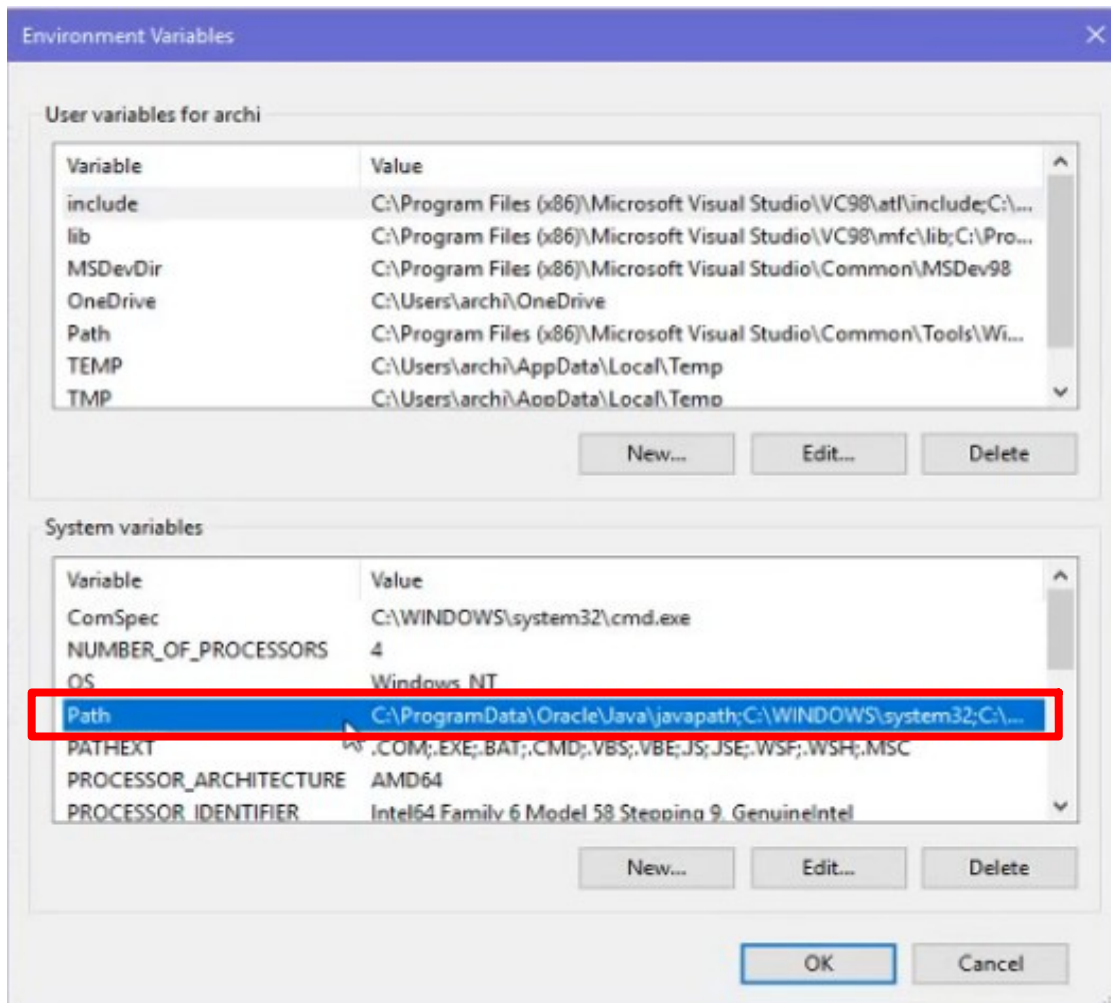

4:

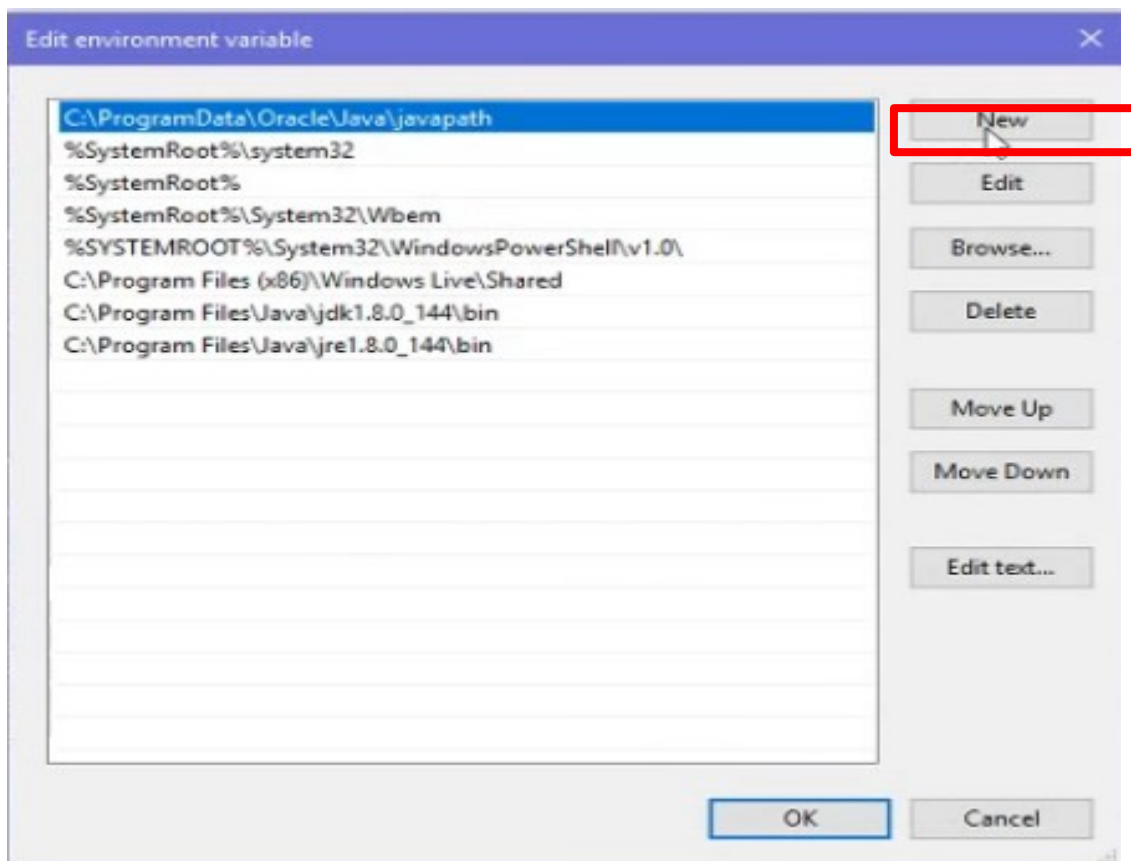

5:

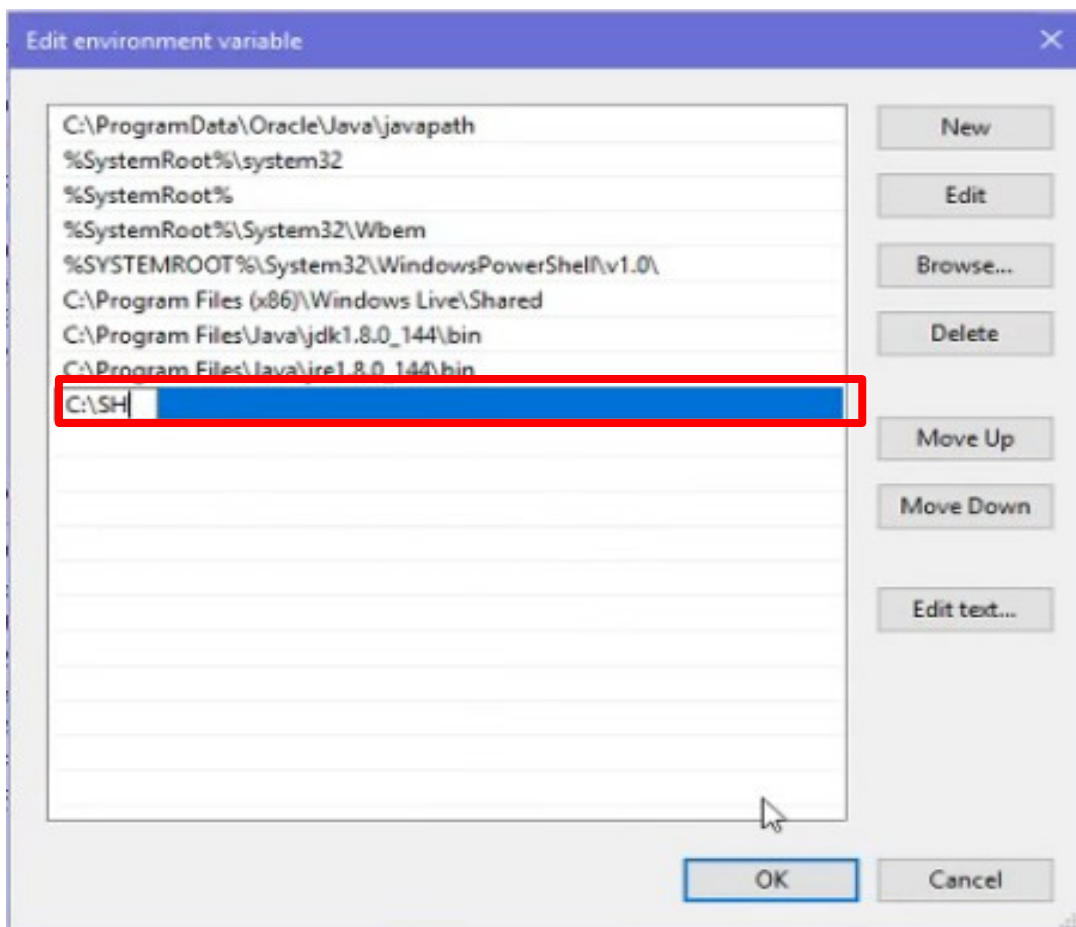

6:

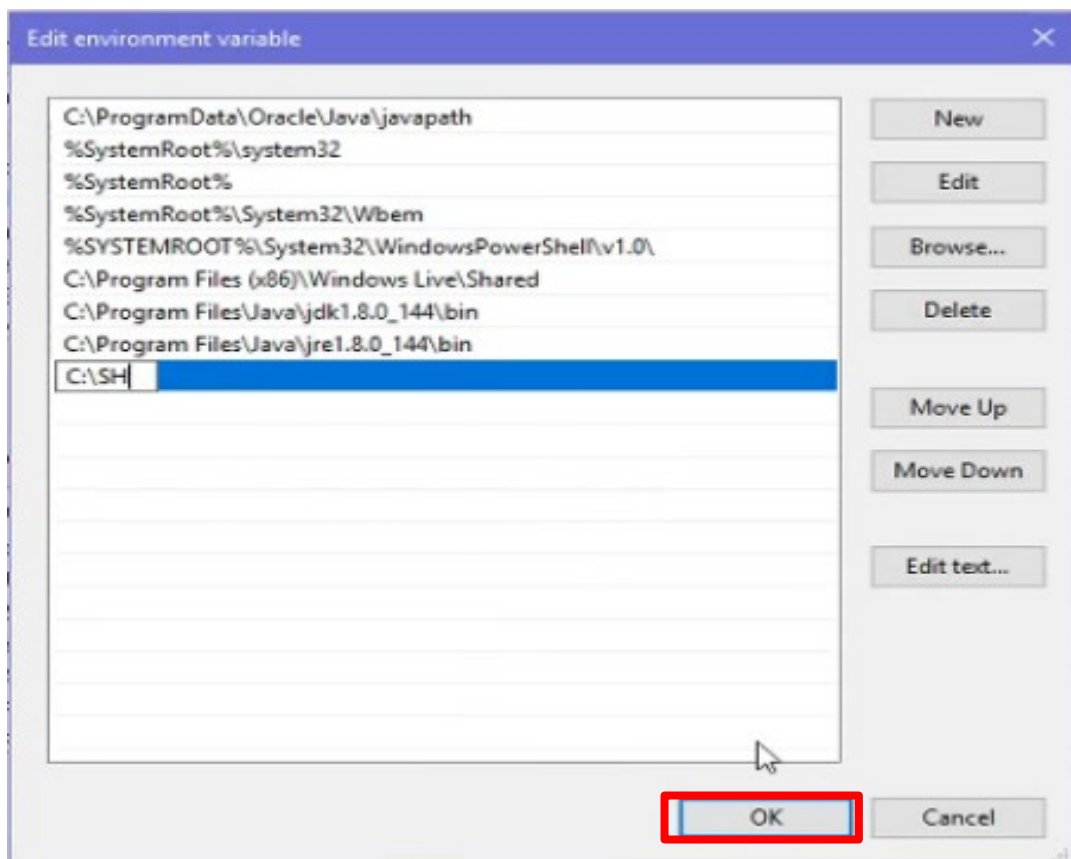

7:

8:

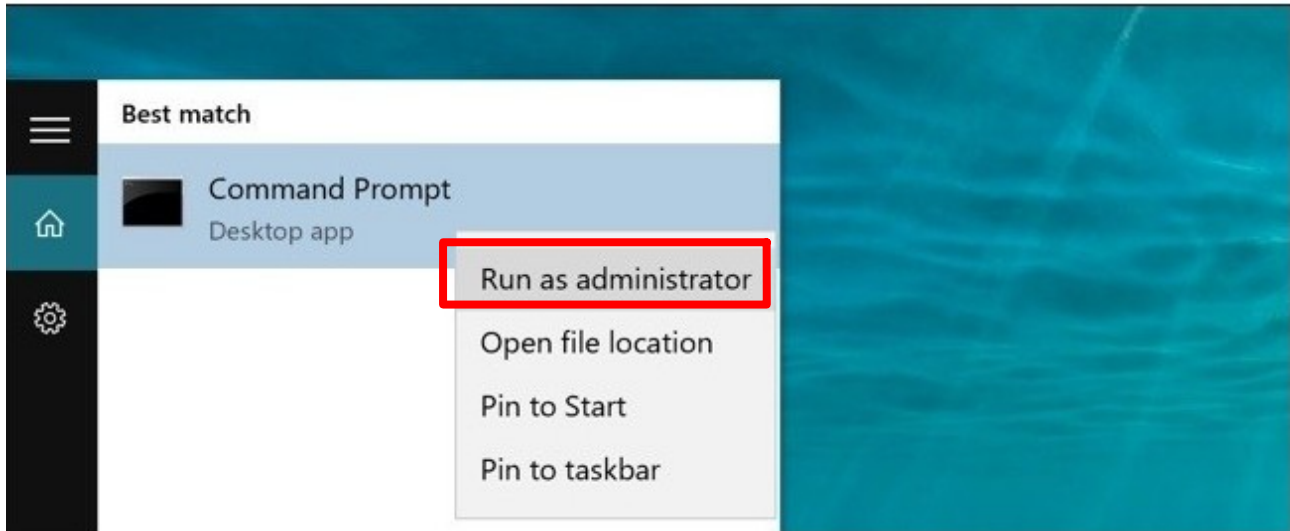

9:

**Now Click on ok which files are open for closing.**

**10:**

**When CMD open then you will have to go that directory where you download PHcourses file for example in my case I download it in '[C:/Downloads](#)' then what I will do: just type these commands,**

**1: [C:/Users/myuser](#)> cd Downloads/sh\_courses-PH/**

**2: [C:/Users/myuser/Downloads/GHsoft/bash\\_Course](#)> sh fullcourse.sh**

**DONE.**
