How To run this course in WINDOWS?
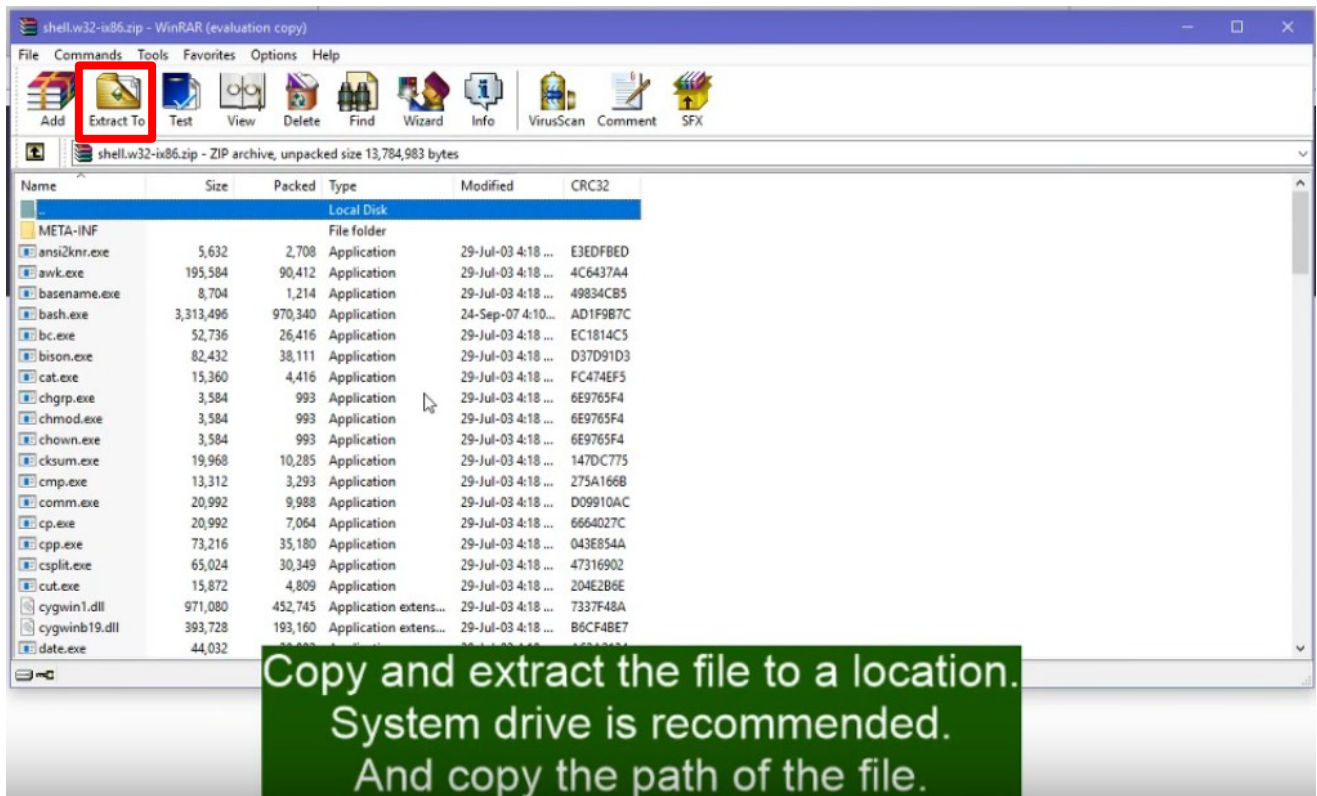

Lets gets Start!
And Follow Below Steps:

First unzip the 'shell.w32-ix86.zip' in C:/SH:

1:

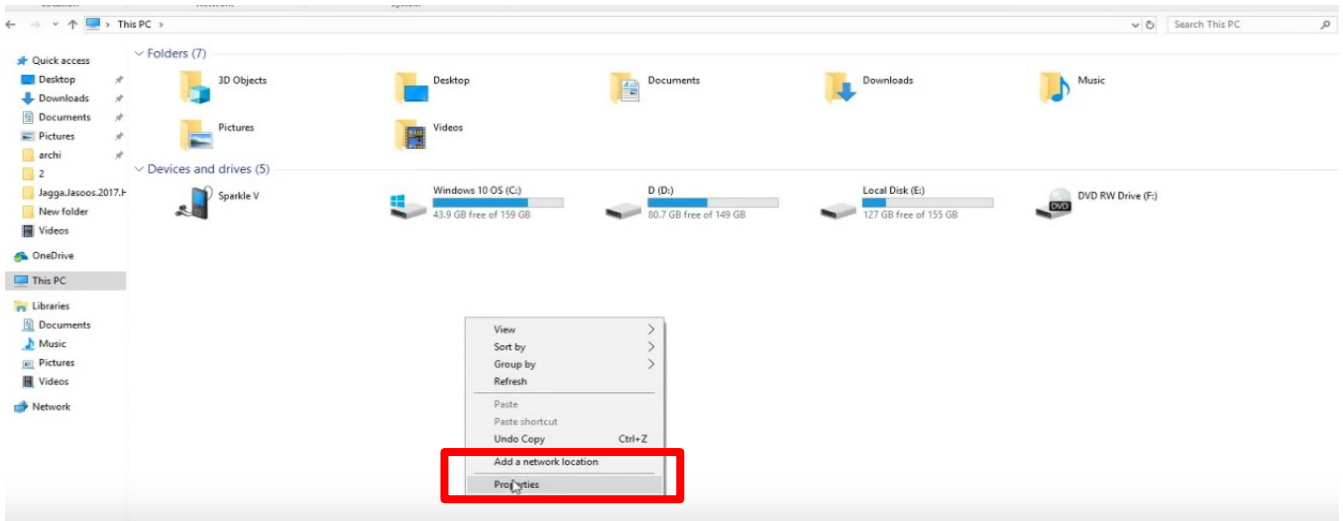

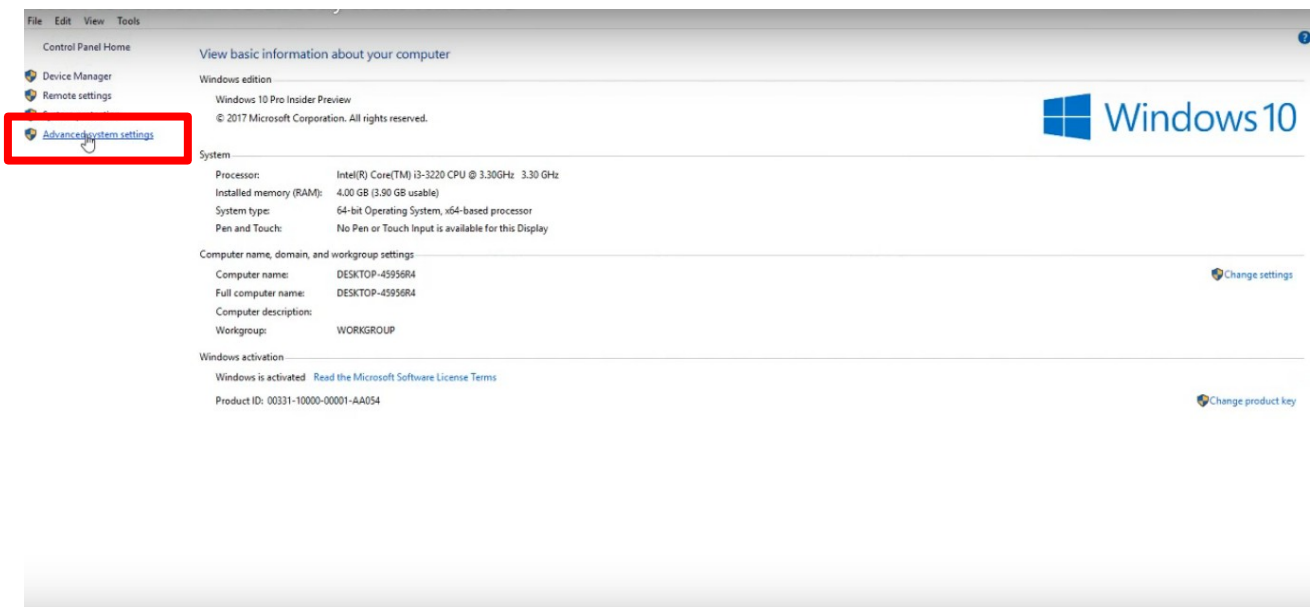

2:

Then Click On OK. After Extracting then go to Properties of My PC.

3:

**4:**

5:

**6:**

7:

8:

9:

Now Click on ok which files are open for closing.

10:

When CMD open then you will have to go that directory where you download PHcourses file for example in my case I download it in 'C:/ Downloads' then what I will do:
just type these commands,

1: C:/Users/myuser> cd Downloads/courses-PH/bash_Course

2: C:/Users/myuser/Downloads/GHsoft/bash_Course> sh fullcourse.sh

DONE.
